1. Good spelling.
2. Good punctuation for proper nouns (Eid, Bangladesh)
3. This celebration happens every year so use the present simple **not the past simple** for all **routines**.
4. Good, neat handwriting.

- **New eTrackr personal target to improve adjectives and plurals, a writing activity.**

I would like you to type some sentences about this year's Eid celebration at your house. Use the **past simple tense** for example: I celebrated and some use some really nice adjectives. Try to make 2 paragraphs and there should be 3 or 4 sentences in one paragraph. Start this writing when Eid finished.

In class you will read this to someone confidently, slowly and clearly.
