

Class Activity: Little Shopper

1. The class sits in a circle. Each student gets a flashcard with either characters or a picture to memorize. Students show their flashcards to the “shopper”.
2. The teacher explains the rules and serves as the first “shopper”.
3. The shopper says: “I am going to the supermarket to buy WW, XX, YY, and also ZZ”. Then students that have the flashcards with the items called out by the shopper stand up and follow the shopper.
4. While they are shopping, the teacher removes one of their chairs.
5. When the shopper has purchased everything that he / she wanted to buy, he / she says: “I’m finished shopping” and all of the students have to quickly find a seat to sit on.
6. The student that doesn’t find a seat is the next shopper.

(The teacher can decide which flashcards to use based on student skill levels.)
