BATHROOM

Read the passage below and answer the questions

Hoan lives in a family of 4: her parents, her sister and she. They are both very busy people so they divide the chores around the house fairly. Her father is in charge of fixing all the things in the house. He also cleans the bathroom twice a week. Her mom cooks and buys food. As an older child in the house, Hoan does laundry, garbage, and refrigerator cleaning once a week. Her younger sister Anh's duties include helping my mother prepare meals and wash dishes. Her sister and Hoa take turns cleaning tables for meals, sweeping the house, and feeding cats. They share the chores voluntarily together because they know the burden will be reduced.

Q1: How many people in Hoan's family?

_____

Q2: What does Hoan's father do at home?

_____

Q3: Does Hoan's mother cook and buy food?

_____

Q4: Why does Hoan's family share the chores?

_____
