Reading

I. Read the text and complete sentences with the words in the box. (8 marks)

Ant colonies

Ants are small, but they can build big homes. We call these homes "ant colonies". Ant colonies have different rooms. There is a room for food. There is a room for raising young ants. There is a room for the queen.

Some ant colonies are in trees. But most ant colonies are under the ground. Ants dig in the dirt. They bring up the dirt and make a pile. We call these piles "ant hills". Some people have pet ants. They put them in a glass case with sand. People call these "ant farms". You can look inside and see the ants at work.

tree sand build dirt work different pet ant colonies

1. Ants are small, but they cana big home.
2. We call these home
3. Ant colonies have room.
4. Ant dig in the
5. Some ant colonies are in
6. Some people have ants.
