4. Click on the correct option:
Is this animal oviparous or viviparous?

OVIPAROUS
VIVIPAROUS

OVIPAROUS
VIVIPAROUS

OVIPAROUS
VIVIPAROUS

OVIPAROUS
VIVIPAROUS

OVIPAROUS
VIVIPAROUS

OVIPAROUS
VIVIPAROUS

OVIPAROUS
VIVIPAROUS

AND HOW DO THEY INTERACT ?

5. Select the correct option:
If we say that:

Many animals travel in groups to protect themselves from predators or to obtain food

It means they interact...

Other animals only try to find the company of other members of their species to reproduce.

It means they interact...

There are also animals that provide us friendship, help us with different tasks or give us food.

It means they interact...
