

### Materials Used for Building Bridges

You will watch the video, <https://www.youtube.com/watch?v=wx063r3hbHc>.

Pause the video as needed to complete the following chart.

| Type of Material    | Two things learned about using this material |
|---------------------|--|
| Stone               |  |
| Timber              |  |
| Concrete            |  |
| Steel               |  |
| Reinforced Concrete |  |

What is the best material to build a bridge out of and why?

Why did the Tacoma bridge collapse?
