

IELTS Writing Task 1:

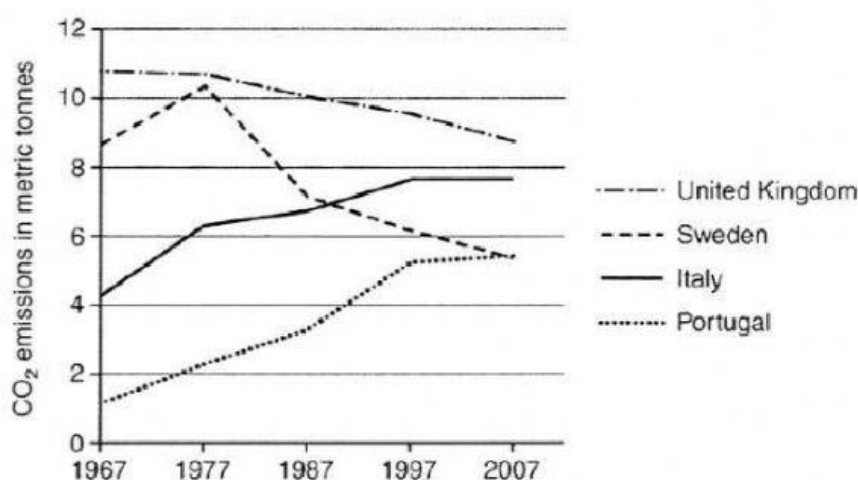

On a separate sheet of paper write a report for a college professor's presentation using the information from the graph below. You should use approximately 20 minutes to complete this task.

The graph below shows average carbon dioxide (CO₂) emissions per person in the United Kingdom, Sweden, Italy and Portugal between 1967 and 2007.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

Average carbon dioxide (CO₂) emissions per person, 1967–2007

Source: Cambridge IELTS 11 Academic.

IELTS Writing Task 2:

On a separate sheet of paper write an essay answering the question below. You should use approximately 40 minutes to complete this task.

The growing number of overweight people is putting a strain on the health care system in an effort to deal with the health issues involved. Some people think that the best way to deal with this problem is to introduce more physical education lessons in the school curriculum. To what extent do you agree or disagree?
