

THE ENVIRONMENT
CAUSES OF LAND POLLUTION

1-Match the pictures with the words.

GARBAGE – MINING – FARMING – FACTORIES

2- Read and match.

GARBAGE

It has destroyed many ecosystems and animal habitats.

MINING

It can release toxic chemicals into the air and soil

FARMING

They produce a significant amount of garbage and waste.

FACTORIES

Some of this gets recycled, but most of it ends up in a landfill.
