

If you don't stay still,

if you look at my art history book.

I will show you the painting

if I practice painting a lot.

You will understand art better

I will never finish painting your portrait.

I won't be able to paint like that

If I finish it.

If you look closely,

we will leave now.

If you are ready,

you will find a red tiny spot on the window.

If she finishes homework

you should call the police.

If you see him,

we will play video games together.
