

Mathematics

Find the missing numbers for the sums to be completed.

1) $11 + \square = 13$

2) $100 + \square = 120$

3) $19 + \square = 28$

4) $\square + 11 = 11$

5) $\square + 10 = 10$

6) $\square - 4 = 16$

7) $37 - \square = 18$

8) $50 - \square = 25$

9) $69 - \square = 49$

10) $98 - \square = 29$
