

Write a 2 or 3 minute talk about your experience of living in Birmingham and learning a new language to make Birmingham your home.

Here are some ideas to help you write:

- Where have you lived before?
- How long have you lived in Birmingham?
- **How is the main culture in the UK different to what you knew before?**
- **In addition to the English language, what was new for you when you arrived?** For example, making an appointment to see a doctor, putting your rubbish out for collection one day a week and any other examples?
- **Moving to Birmingham must be difficult so what have you learnt since you arrived?**
- **How is your life better now because you learn English?**
- What do you think is special about Birmingham? What do you like?
- What do you dislike about Birmingham? What would you change?
- Does Birmingham feel like home now and how do you feel about your future?

Write as much as you can and show me when you finish. Correct spelling is not as important as your choice of words, so don't worry about spelling in this writing! 😊 Express yourself freely.
