

NAME:

CLASS:

1. Find the coordinates for the questions below.

- a. What are the coordinates of the points A, B and C?
- A                      B                      C
- b. Plot point D so that four points make a rectangle.
- c. What are the coordinates of the point D?
- d. On the same coordinate grid, plot these points.
- E (7,6)                      F (7,8)                      G (9,8)                      H (9,6)
2. Join the above points (coordinates) and see what shape will be formed?
