MY FRIENDS

My name is Javier and I'm going to talk about my friends. There are 6 people in my group of friends, including myself. There's Marcela. She is very active. She loves playing different sports: soccer, basketball, tennis, etc. Another friend from the group is Jaime. Daniel enjoys academic activities. He likes studying and participating in debates. Oscar likes music. He is a very talented guitar player. He loves all kinds of music, but he prefers Rock. There's one style of music he dislikes a little bit: Trap, because it's difficult to play it on a guitar. Another friend is Carolina. She adores making handcraft and knitting. She hates doing physical activities. She prefers calm, relaxing hobbies. The last one from the group is Alejandra. She doesn't have specific preferences on anything. She doesn't mind listening to all kinds of music or doing different types of activities. As to me, I adore drawing and painting, especially animals. They're my favorite.

Para hacer esta actividad te recomiendo que, al leer los textos, destaques con diferentes colores la información relevante para las preguntas, es decir, **nombres, verbos de gustos y preferencias, y actividades**. Guíate por las palabras de vocabulario que aparecen en la tabla de este guía y en la anterior. Puedes ocupar diccionario o traductor si lo necesitas.
