Tabuada do 7

1. Marque um X nos retângulos que aparecem os resultados da tabuada do 7.

9	70	21	35	49
56	3	33	49	14
28	37	3	23	7
44	14	42	65	1
33	63	56	70	7

2. Complete o círculo multiplicando o número no centro pelo anel central para obter os números que estão no círculo de fora ou complete com o número que foi multiplicado para obter o número do círculo de fora.

3. Escreva os resultados das tabuadas:

a) $7 \times 3 =$ _____

b) $7 \times 9 =$ _____

c) $7 \times 7 =$ _____

d) $7 \times 1 =$ _____

e) $7 \times 8 =$ _____

f) $7 \times 4 =$ _____

4. Preencha o número em falta.

a) $7 \times \text{★} = 63$ b) $7 \times \text{★} = 28$ c) $7 \times \text{★} = 70$

5. Resolva as tabuadas com o resultado correto:

$7 \times 4 = \underline{\hspace{2cm}}$

$7 \times 2 = \underline{\hspace{2cm}}$

$7 \times 5 = \underline{\hspace{2cm}}$

$7 \times 8 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$7 \times 2 = \underline{\hspace{2cm}}$

$7 \times 10 = \underline{\hspace{2cm}}$

$7 \times 3 = \underline{\hspace{2cm}}$

$7 \times 10 = \underline{\hspace{2cm}}$

$7 \times 2 = \underline{\hspace{2cm}}$

$7 \times 1 = \underline{\hspace{2cm}}$

$7 \times 9 = \underline{\hspace{2cm}}$

$7 \times 3 = \underline{\hspace{2cm}}$

$7 \times 6 = \underline{\hspace{2cm}}$

$7 \times 3 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$7 \times 5 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$7 \times 5 = \underline{\hspace{2cm}}$

$7 \times 8 = \underline{\hspace{2cm}}$

$7 \times 1 = \underline{\hspace{2cm}}$

$7 \times 9 = \underline{\hspace{2cm}}$

$7 \times 9 = \underline{\hspace{2cm}}$

$7 \times 6 = \underline{\hspace{2cm}}$

$7 \times 1 = \underline{\hspace{2cm}}$

$7 \times 10 = \underline{\hspace{2cm}}$

$7 \times 8 = \underline{\hspace{2cm}}$

$7 \times 6 = \underline{\hspace{2cm}}$

$7 \times 4 = \underline{\hspace{2cm}}$

$7 \times 4 = \underline{\hspace{2cm}}$

$7 \times 6 = \underline{\hspace{2cm}}$

$7 \times 1 = \underline{\hspace{2cm}}$

$7 \times 10 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$7 \times 3 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$7 \times 4 = \underline{\hspace{2cm}}$

$7 \times 6 = \underline{\hspace{2cm}}$

$7 \times 6 = \underline{\hspace{2cm}}$

$7 \times 9 = \underline{\hspace{2cm}}$

$7 \times 5 = \underline{\hspace{2cm}}$

$7 \times 9 = \underline{\hspace{2cm}}$

$7 \times 5 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$7 \times 8 = \underline{\hspace{2cm}}$
