June 23rd - Poetic Tools Revision

1)Match the definitions with the correct poetic tool:

Personification                    Comparing two things by saying
                                   that something IS something else.

Simile                             Comparing two things by using
                                   LIKE or AS.

Metaphor                           Describing something in great
                                   detail to help the reader form a
                                   mental picture.

Imagery                            Giving human characteristics to
                                   something that is not alive.
