It's **amazing/surprising** how you can **talk/speak** right to my heart
Without **saying/singing** a word you can light up the **shark/dark**
Try as I may I can never **explain/restrain**
What I **hear/hair** when you don't say a thing.

The.....on your face let me know that you.....me
There's a truth in your.....saying you'll never.....me
Theof your.....says you'll catch me
I fall. You say it best, when you say

All day long I can hear **people/a person** talking out loud (oh!)
But when you **hug/hold** me near (oh, **hug/hold** me near)
You **drive/drown** out the crowd (**drive/drown** out the crowd)
Try as I may they can never **justify/defy**
What's been said between your **head/heart** and mine.

The.....on your face let me know that you.....me
There's a truth in your.....saying you'll never.....me
Theof your.....says you'll catch me
I fall. You say it best, when you say

You say best, when you say.....
You say best, when you say.....
(theon your face)
You say best, when you say.....
(the truth in your.....)
(the.....of your hand)
You say best, when you say.....
(let me know that youme).
