

I'll be fine –Neffex

I swear that I'll be fine, yeah, lookin' for a sign, yeah
Always in my mind, I've been losing track of time
Man, I miss when I was nine, yeah, everything was fine, yeah
Think I'll be alright, I just need you by my side

But I swear that I'll be fine, yeah, lookin' for a sign, yeah
Always in my mind, I've been losing track of time
Man, I miss when I was nine, yeah, everything was fine, yeah
Swear I'll be alright, I just need you by my side, yeah (Yeah, yeah)

And I've been through some harder days, things that I've let get away
I'm just sick of feeling things, don't know what forever brings
I've been losing everything, I'm my own worst enemy
Feelin' like I'll never be anything I wanna be

I've been through some changes, hope to rearrange it
Flippin' through the pages, playin' different stages
Everything I'm chasin' don't know why I'm chasin'
Leave without a trace and still don't know my place yet

Lately, I've been thinkin' maybe I can just be alright
Find something I love and maybe I can make my own life

And I can get it just right

If I can get it just right

(x2)

I swear that I'll be fine, yeah, lookin' for a sign, yeah
Always in my mind, I've been losing track of time
Man, I miss when I was nine, yeah, everything was fine, yeah
Think I'll be alright, I just need you by my side

But I swear that I'll be fine, yeah, lookin' for a sign, yeah
Always in my mind, I've been losing track of time
Man, I miss when I was nine, yeah, everything was fine, yeah
Swear I'll be alright, I just need you by my side
I just need you by my side, yeah

I know, I know this life, it gets crazy
Had those little moments I never thought I would make it
Had to take my thoughts and figure out how to change them
All the bad ones, eventually I erased them

Had to take my mind and figure out how to own it
Everything designed to make my life how I want it
Now I'm doing fine, I plan to keep it all goin'
Now I'm doing fine, I plan to keep it all growing, yeah

Lately, I've been thinkin' maybe I can just be alright
Find something I love and maybe I can make my own life
And I can get it just right
If I can get it just right
(x2)

CHORUS (X2) Go to the begining

Look for:

- A verb in present perfect.
- A verb in future simple.
- A verb in present simple.
- A verb in past simple.
- A comparative.
