

Name: \_\_\_\_\_

## The Universe

Word bank: Universe hot Earth Supercluster Galaxies  
Local Group Solar System Big Bang

The Universe has all these things in it:

1. \_\_\_\_\_ where we live.
2. The \_\_\_\_\_ including the sun (our star)
3. \_\_\_\_\_ like the Milky Way.
4. \_\_\_\_\_ which are galaxies pulled together by gravity.
5. \_\_\_\_\_ which are the largest things in the Universe.

Scientists believe that the \_\_\_\_\_ formed from a very \_\_\_\_\_ and dense point in space.

This is called the \_\_\_\_\_ theory.
