Hi Tessa,

I am finally in England. At the moment, I (1) **live / can live / am living** with my friends in a small apartment in London. It's so nice here! We (2) **get up / gets up / getting up** very early in the morning and we (3) **are going / can go / go** for a walk. Jane (4) **study / studies / is studying** at university, but today she (5) **stays / stay / is staying** home because it is a holiday here in London. She (6) **is going / goes / go** to university in the morning and in the afternoon she (7) **studying / is studying / studies**. She (8) **doesn't go out / can't go out / is not going out** in the evenings. She stays home and chats with her friends.

I can write again tomorrow.

Love,

Lili
