NAME: _____ DATE: _____

COURSE/GRADE: _____ SUBJECT: _____

TOPIC: _____

INSTRUCTION: _____

Atoms and Molecules

COMPLETE SPACES USING THE CORRECT WORDS.

protons – molecules – uncuttable – quarks – atoms / molecules – building blocks – nucleus – tiny -matter/energy
- neutrons

1. Things are made up of _____ pieces of stuff.
2. "Atoms" is from a Greek word meaning _____.
3. The heavy particles of the atom are in the _____.
4. Protons and _____ are found in the nucleus.
5. Atoms are the basic _____ of all matter.
6. When atoms combine, they can make _____.
7. All matter is made of particles called _____ and _____.
8. The number of _____ in the nucleus makes the atoms different.
9. Everything in the universe is either _____ or _____.
10. Inside protons and neutrons are _____. These are studies by a NUCLEUR PHYSICIST
