

CRY ON MY SHOULDER

If the hero _____ comes to you
If you need someone you're feeling blue
If you're away from _____ and you're alone
If you call your _____ and nobody's home
You can _____ away but you can't hide
Through a storm and through a lonely night
Then I show you there's a destiny
The _____ things in life
They're _____

[Chorus]

But if you wanna cry
Cry on my shoulder
If you need someone who _____ for you
If you're feeling _____ your _____ gets colder
Yes I show you what real love can _____

If your sky is _____ oh let me know
There's a _____ in heaven where we'll go
If heaven is a million years _____
Oh just call me and I make your day
When the _____ are getting cold and blue
When the days are getting hard for you
I will always stay here by your _____
I _____ you I'll never hide

[Repeat chorus]

But if you wanna cry

Cry on my shoulder

If you need someone who _____ for you

If you're feeling _____ your _____ gets colder

Yes I show you what real love can _____

But if you wanna cry

Cry on my shoulder

If you need someone who _____ for you

If you're feeling _____ your _____ gets colder

Yes I show you what real love can _____

What real love can _____

What love can _____

What real love can _____

What love can _____

What real love can _____

What love can _____
