Name:

# Coronavirus symptoms

Grade:

People with COVID-19 may have a wide range of symptoms, ranging from mild symptoms to severe illness.

Symptoms may appear **2-14 days after exposure to the virus.** People with these symptoms may have COVID-19:

cough | sore throat | fatigue | fever | lose of smell and taste

shaking chills | shortness of breath | headache | diarrhea

You may not show any of these symptoms and be infected. This is what is we call an **asymptomatic** person. Very little is known about this cases. But careful! **You're still at risk of spreading the coronavirus to others**.
