

Level 4 Summer Practice Quiz 1

Hello Sean!

It's Kurt. I want to write to you about my new school; Sportville. It is an unusual kind of school: a sports school! It is a school for the sports people of the future. There are 230 students age from 11 to 15 years old.

We learn about sports in the morning and then we have lunch and practice sports in the afternoon. All students do more than one sport in our school. I play tennis, do karate and swim. We have to practice at least 4 hours a day.

We study standard subjects such as maths and literature too but sports is the most important thing. When I finish Sportsville, I want to be a famous tennis player.

Kurt
