

Name : _____

Date : 16 July 2021 (Friday)

B) Read the informational leaflet about the Philippine eagle. Answer TWO questions.

The Philippine eagle

What is it ?

The Philippine eagle lives in the forests of the Philippines. Adult birds can be one metre long and can weigh eight kilos. It's one of the biggest birds in the world. It eats snakes and small animals **such as** bats and small monkeys.

What's the problem ?

The Philippine eagle is now in danger and it's very rare. The biggest problem is human activity **like** farming.

How can we help ?

You can find information on the website of the Philippine Eagle Foundation. The website explains how we can help to protect it. **For example**, it's possible to 'adopt' an eagle.

1. Why is the Philippine eagle special ?
