

1) Read this letter and complete the tasks.

Dear Thomas,

Hello! How are you? How is Earth? I'm here, in the space and it's awesome! I'm called Warren and I am an astronaut. I'm only thirty years old.

There are four more astronauts in this station at the moment – three men and one woman. We are from different countries – I'm from Germany, the woman is from Russia and two men are from Japan. There are five bedrooms (they are called galleys). There's a room called the service module, too – our personal computer (for e-mails) is in it, and there's a big white table... and there's a bike!

My galley is very small – of course! There's a sleeping bag in it, but it isn't on the floor – it is on the wall.

Here, it isn't cold, it is very warm. Apart from that, it isn't very dark – there are a lot of colours on the walls and there are fourteen windows.

What's my favourite thing? Good question! In space, my favourite thing is the computer... and on Earth it's my bed!

Love! Warren.
