### Fraction

Write the fractions.

Compare them.

— > —

Solve the followings.

$$\frac{2}{7} + \frac{3}{7} = \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$$

$$\frac{7}{9} - \frac{5}{9} = \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$$

$$\frac{4}{10} + \frac{3}{10} = \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$$

$$\frac{4}{5} - \frac{3}{5} = \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$$

### Challenge

$$1 - \frac{1}{3} = \text{---} = \text{---}$$

$$\frac{7}{9} + \frac{2}{9} = \text{---} = \text{---}$$

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
