

Name:

Complete the tree map below with linear equations in two variables and non-linear equations in two variables by referring the answer options below.

Answer options	
$\sqrt{y} = 3$	$0.5 + m = \frac{1}{3}n$
$x - y = 11$	$5ab + 8 = 13$
$5h - k = 21$	$-11p + 3q = 28$
$p(8q - 3) - 2 = 1$	$a = 3b + 7$
$m = 4$	$\frac{2}{t} - 3 = 8t$
