

PART 4 – Question 1 – 10

Read the text below and answer questions 1 to 10.

HOW TO MAKE A NOTICEBOARD

1. You need four different-coloured cotton materials – 25 centimetres by 115 centimetres. Cut out four 16.5-centimetre squares from each of the four coloured fabrics.
2. Lay out the squares in the order that you want. Sew the squares together first in pairs, and then in fours. Finally sew them in rows. Check the squares to make sure they are even and properly sewn.
3. Get a piece of Styrofoam about 60 centimetres square. Trim it to exactly the size of the patchwork. Stick some double-sided tape strips on the Styrofoam. Lay the patchwork, wrong side up, on a flat surface. Place the Styrofoam board over it, centring over the patches. Press down well so that the patchwork sticks to the board.
4. On the right side, pin lengths of black or dark-coloured ribbons in order to decorate the board. Secure them with colourful thumbtacks.
5. You can now hang your noticeboard up. Hold your messages and cards in place using the ribbons.

Questions 1 – 8

Answer the questions below. Choose **no more than five words and/or a number** from the text for each answer. For each question, write your answer in the space provided.

- 1 You will need four different coloured _____ to make a noticeboard. [1 mark]
