

Penjumlahan dan Pengurangan Pecahan

Nama:

Pasangkan hasil penjumlahan dan pengurangan dengan menarik gambar

1 $\frac{1}{3} + \frac{3}{5}$

2 $\frac{2}{3} + \frac{3}{4}$

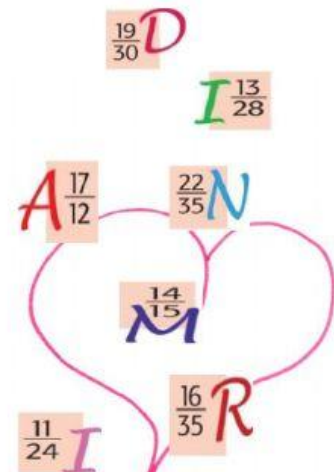

3 $\frac{3}{7} + \frac{1}{5}$

4 $\frac{5}{6} - \frac{1}{5}$

5 $\frac{5}{7} - \frac{1}{4}$

6 $\frac{3}{5} - \frac{1}{7}$

7 $\frac{5}{8} - \frac{1}{6}$

Lengkapi pecahan senilai berikut

$$1. \frac{4}{5} - \frac{1}{4} = \frac{\dots}{20} - \frac{\dots}{20} = \frac{\dots}{20}$$

$$2. \frac{1}{3} - \frac{1}{5} = \frac{\dots}{15} - \frac{\dots}{15} = \frac{\dots}{15}$$

Perhatikan gambar

Tuliskan pecahan dengan pecahan senilai!

Contoh:

$$\frac{1}{4} + \frac{3}{6} = \frac{3}{12} + \frac{6}{12} = \frac{9}{12}$$

$$= \frac{3}{4}$$
