Hari, tgl :

Simaklah video berikut ini dengan seksama sebelum mengerjakan soal !

Selesaikanlah operasi hitung pecahan berikut!

1. $\frac{2}{3} + \frac{3}{4} - \frac{1}{6} = - + - - - = - = - = -$

2. $\frac{9}{10} - \frac{2}{5} + \frac{3}{4} = - - - + - = - = - = -$

3. $1\frac{3}{5} + 2\frac{1}{6} - \frac{1}{2} = (+) + (- + - - -) = + - = - = -$

4. $2\frac{2}{3} + 4\frac{3}{5} - \frac{4}{15} = (+) + (- + - - -) = + - = + =$

5. $8\frac{8}{9} - 2\frac{1}{6} - \frac{1}{2} = (-) + (- - - - -) = + - = -$

6. $12\frac{5}{6} - 3\frac{3}{12} - 1\frac{1}{2} = (- -) + (- - - - -) = + - = -$

7. $15\frac{9}{11} + 2\frac{1}{22} - 1\frac{1}{2} = (+ -) + (- + - - -) = + - = - = -$

8. $20\frac{2}{3} + 5\frac{3}{5} - 2\frac{2}{15} = (+ -) + (- + - - -) = + - = - = -$

9. $24\frac{8}{9} - 12\frac{1}{6} - 3\frac{1}{2} = (- -) + (- - - - -) = + - = - = -$

10. $50\frac{5}{6} - 5\frac{5}{12} - 4\frac{1}{8} = (- -) + (- - - - -) = + - = -$

Pasangkanlah operasi hitung berikut yang mempunyai nilai sama!

1. $6\frac{1}{6} + 5\frac{5}{12} - 4\frac{1}{3} = \dots$

2. $5\frac{4}{5} - 2\frac{7}{20} - 1\frac{1}{4} = \dots$

3. $10\frac{5}{8} - 4\frac{5}{12} + 2\frac{3}{4} = \dots$

4. $12\frac{5}{6} + 2\frac{3}{12} - 5\frac{1}{4} = \dots$

5. $15 - 5\frac{4}{16} - 4\frac{1}{8} = \dots$

a. $\frac{1}{5} + 2$

b. $3\frac{1}{4} + 2\frac{3}{8}$

c. $9 + \frac{5}{6}$

d. $7 + \frac{1}{4}$

e. $7\frac{7}{12} + 1\frac{3}{8}$
