

Watch this **video** from photodendro and complete the sentences with can/can't, must/mustn't.

We change the world in one day
but we all help make the place
we live in a better place.

Did you know that you also recycle
electric devices and used oil?

In schools there are special barrels where we
..... throw our used batteries.

We
plan school
excursions to the
mountain or the
beach....

... so that we.....
clean the area from
the trash that
people throw.

We put the recyclable trash in plastic bags.

We put them directly in the correct bin.

We leave the trash outside the bins because small
animals may scatter them.

We throw away used clothes, toys and books that we
don't need.

We exchange them with other children .
