I often hear or read about "natural disasters" – the eruption of Mount St. Helen, volcano in the state

Read the advertisement and then decide whether the statements that follow are True or False. Write True or False in your answer sheet:

Pollution is a major problem of our times. Air, water and land are all polluted. Poor waste disposal is to blame for many of the problems and the situation is particularly acute in heavily industrialized and over-populated regions. Pollution of the atmosphere has led to the destruction of the ozone layer and to the green house effect. Other environmental problems have been caused by too rapid a use of resources. There are far fewer fish in the sea because of over-fishing and the destruction of the rain forests is having unforeseen ecological consequences. Battery farming provides a lot of food but involves keeping animals in unnatural and unhealthy condition.

30. Pollution is an important problem nowadays.

31. Pollution of the atmosphere has destroyed the ozone layer.

32. There are more fish in the sea due to over-fishing. _____
 33. Battery farming provides a lot of food and involves keeping animals in good condition. _____
