

## Addition Of Time

Calculate the following.

$$\begin{array}{r} 1) \quad \begin{array}{r} 3 \text{ 4 hours} \\ + \quad 4 \text{ 6 hours} \\ \hline \end{array} \end{array}$$

$$\begin{array}{r} 2) \quad \begin{array}{r} 5 \text{ 4 minutes} \\ + \quad 2 \text{ 1 minutes} \\ \hline \end{array} \end{array}$$

$$\begin{array}{r} 3) \quad \begin{array}{r} 1 \text{ 9 seconds} \\ 9 \text{ 0 seconds} \\ + \quad 4 \text{ 0 2 seconds} \\ \hline \end{array} \end{array}$$

$$\begin{array}{r} 4) \quad \begin{array}{r} 2 \text{ 9 hours 1 2 minutes} \\ 5 \text{ hours 2 3 minutes} \\ + \quad 3 \text{ hours 0 8 minutes} \\ \hline \end{array} \end{array}$$

$$\begin{array}{r} 5) \quad \begin{array}{r} 3 \text{ 9 minutes 2 0 seconds} \\ 4 \text{ minutes 2 4 seconds} \\ + \quad 2 \text{ minutes 2 8 seconds} \\ \hline \end{array} \end{array}$$

$$6) \quad 35 \text{ seconds} + 287 \text{ seconds} = \boxed{\phantom{000}} \text{seconds} \quad 7) \quad 24 \text{ minutes} + 43 \text{ minutes} = \boxed{\phantom{00}} \text{minutes}$$

$$8) \quad 30 \text{ hours} + 53 \text{ hours} = \boxed{\phantom{00}} \text{hours}$$

$$9) \quad 2 \text{ hours 35 minutes} + 9 \text{ hours 9 minutes} + 3 \text{ hours 11 minutes} = \boxed{\phantom{00}} \text{hours } \boxed{\phantom{00}} \text{minutes}$$

$$10) \quad 27 \text{ minutes 27 seconds} + 10 \text{ minutes} + 6 \text{ minutes 40 seconds} = \boxed{\phantom{00}} \text{minutes } \boxed{\phantom{00}} \text{seconds}$$
