

Maisy Kay - Blood Filled Tears

Where did you go
You turned the [] out
Shut the [] in your own face
Only you know
After []
[] are crashing into place
For the first time, in a [] time
The night is [] clear
But the rain falls, on the asphalt
As you [] away your tears
[] my heart and hope to save a life
Let me in the shadows of your closing eyes
Visions getting []
Clouded by the pain
Addicted to escape but she can't see that
Everyone's []
I see it every day
Watch them wash away
Their blood filled tears
Their blood filled tears
Can you hear it, come in closer
Press your ear [] my heart
If you scream will they hear you
If you've [] their part
[], darkness wanders
As you say your last goodbye
Without a whisper, who could listen
Silence was your []
Cross my heart and hope to save a life
Let me in the shadows of your closing eyes
Visions getting stained
Clouded by the pain
Addicted to escape but she can't see that

Everyone's insane
I see it every day
Watch them wash away
Their blood filled tears
Their blood filled tears
Now you've left me on the ground
Can't pick up the pieces if you're not around
So, I cross my heart and hope to save a life
Let me in the shadows of your closing eyes
Visions getting stained
Clouded by the pain
Addicted to escape but she can't see that
Everyone's insane
I see it every day
Watch them wash away
Their blood filled tears
Their blood filled tears
