

Four lit light bulbs are shown in a row, representing the correct answer to the question.

A subtraction problem is shown: $86 - 79$. The number 86 is represented by 8 tens rods and 6 ones units. The number 79 is represented by 7 tens rods and 9 ones units. A place value chart is shown below the problem, with columns for Tens and Ones. The Tens column has a dashed box for the minuend and a solid box for the difference. The Ones column has a dashed box for the minuend and a solid box for the difference.

$$\begin{array}{r} 22 \\ - 19 \\ \hline \end{array}$$

$$\begin{array}{r} \boxed{} \\ \cancel{6} \boxed{} 2 \\ - 4 6 \\ \hline \boxed{} \end{array}$$

$$\begin{array}{r} 96 \\ - 69 \\ \hline \boxed{} \end{array}$$

$$\begin{array}{r} \cancel{1} 4 \\ - 0 7 \\ \hline \end{array}$$

Base ten blocks representing the subtraction $88 - 37$. The top row shows two tens rods and eight ones units. The bottom row shows three tens rods and seven ones units. The difference is one ten rod and one ones unit.

$$\begin{array}{r} \boxed{} \boxed{} \\ - 23 \\ \hline \end{array}$$

$$\begin{array}{r} 82 \\ - 56 \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ \begin{array}{c} \square \\ \times \\ \square \end{array} \begin{array}{c} 4 \\ 4 \\ 7 \end{array} \\ - 3 8 \\ \hline \square \square \end{array}$$

36

− 17

$$\begin{array}{r} \boxed{} \boxed{} \\ 83 \\ - 05 \\ \hline \boxed{} \end{array}$$
