NOTE
A resource is something that a person, country, or organization can use for their benefit.
Distance is the length between two places or points.

A GAME OF HEALTH

There are many health applications. Some count your steps. Others track the calories you eat. And some monitor your heart and breathing as you exercise.

Disaster Survivor is an app that encourages exercise through play. It is an AR game. It changes your city into a post-disaster wasteland. To play, you must walk from place to place and collect resources. You can then use these resources to make tools.

The app encourages walking, running, and riding your bike. The more you move, the more resources you will gather. The app also tracks how far you travel each week. Players who walk long distances get extra rewards. Now, exercising can be fun and exciting. Will you survive the disaster?

1. Some apps monitor your heart.
   a. Right b. Wrong c. Doesn't say
2. *Disaster Survivor* is an AR game.
