

If $A = \{y: y \text{ is a multiple of } 3, y \leq 20\}$ and $B = \{z: z \text{ is a factor of } 18\}$, list the elements of sets: A and B, then find the following sets:

i) $A \cap B$

ii) $A \cup B$

iii) $A - B$

iv) $B - A$

Solution:

Here, $A = \{y: y \text{ is a multiple of } 3, y \leq 20\}$

$= \{3, \square, \square, \square, \square\}$

and $B = \{z: z \text{ is a factor of } 18\}$

$= \{1, \square, 3, \square, \square\}$

i) $A \cap B = \{3, 6, 9, 12, 15, 18\} \cap \{1, 2, 3, 6, 9, 18\}$
 $= \{3, \square, 9, \square\}$

ii) $A \cup B = \{3, 6, 9, 12, 15, 18\} \cup \{1, 2, 3, 6, 9, 18\}$
 $= \{1, \square, \square, 6, \square, 12, \square, \square\}$

iii) $A - B = \{3, 6, 9, 12, 15, 18\} - \{1, 2, 3, 6, 9, 18\}$
 $= \{\square, \square\}$

iv) $B - A = \{1, 2, 3, 6, 9, 18\} - \{3, 6, 9, 12, 15, 18\}$
 $= \{\square, \square\}$
