Unit 5 : Amazing Animals

Worksheet 2

Name _____ Class _____ No. _____

Date _____

Part A *Read the facts of the animals.*

What Are Animals?

Just The Facts

An animal is a living thing. It needs air, food, and shelter. Animals grow, have babies, and move from place to place. Animals can be classified into six main groups:

1) *Mammal* : the young are fed with milk from the mother : bear, monkey, lion, elephant, dog, bat, whale, etc.
2) *Reptile* : a cold-blooded animal which moves on its stomach : snake, lizard, turtle, crocodile, cobra, etc.
3) *Amphibian* : an animal that can live on land and in the water : frog, toad, salamander, etc.
4) *Bird* : an animal with feathers and wings : eagle, peacock, owl, hen, ostrich, duck, etc.
5) *Fish* : an animal that lives in the water and has "fins" for swimming : goldfish, shark, catfish, tuna, salmon, etc.
6) *Insect* : a small animal with six legs : bee, ant, butterfly, grasshopper, mosquito, etc.

Some animals have ***a backbone*** but some animals do not. The ***animals with backbones*** are ***mammals, reptiles, birds, amphibians, and fish***. The ***animals without backbones*** are ***insects, worms, etc.***

People are also a type of animal.
Read these sentences. Check true (/) or false (X)

☐ We give milk to our babies.	☐ We lay eggs.	☐ We live in water.
☐ Our skin is thick.	☐ We have six legs.	☐ Our blood is warm.

What types of animals are we? _____
