NAME: _____ DATE: _____

NAMING LINES, POINTS, RAYS, AND SEGMENTS!

Howdy, LEADers! Please click on the video below and watch it:

https://www.youtube.com/watch?v=4jIb2ZWFHm0

Afterwards, try this worksheet!

Fill in the blanks using the correct words from the WORD BANK:

A point is like a tiny circle or _____ . When points are at the end of a line, they are called _____ . When a line has two endpoints, it is called a _____ . We use _____ to name the points. We also use letters to name line segments, lines, and rays . When a line has an arrow on one end, it is called a _____ . When a line has _____ arrows on either end, it is called a line segment. When a line has _____ arrows, it is called a line. Arrows mean that the line goes on and on _____ . The name of a line or a line segment can be said both forwards and _____ . The name of a ray can only be said one way. You must always _____ with the endpoint. A ray is like a one-way _____ .

street	Forever	No	Letters	Two	Start
Dot	Ray	Line segment	Endpoints	Backwards
