The students in class recorded the lengths of their shows to the nearest centimeter and make a tally chart.

How many more shoes were 18-22 centimeters long combined than 20 centimeters long?

Shoe Lengths		
Length in Centimeters	Tally	
	Boys	Girls
18	𝍸 I	IIII
19	𝍸 I	III
20	𝍸 II	𝍸 IIII
21	𝍸 III	𝍸 I
22	𝍸 IIII	𝍸 I

First, count the tally marks and record the data on the other chart.

Shoe Lengths		
Length in Centimeters	Tally	
	Boys	Girls
18		
19		
20		
21		
22		

Next, add the shoes that were 18 and 22

☐ + ☐ =

☐

Lastly, subtract that answer and 20

☐ − ☐ =

☐
