การบวกลบเศษส่วน

😊 จงแสดงวิธีหาคำตอบ

$$1. \frac{3}{4} + \frac{2}{5} = \frac{3 \times \text{[green box]}}{4 \times \text{[green box]}} + \frac{2 \times \text{[blue box]}}{5 \times \text{[blue box]}}$$

$$= \frac{\text{[pink box]}}{\text{[pink box]}} + \frac{\text{[purple box]}}{\text{[purple box]}}$$

$$= \frac{\text{[orange box]}}{\text{[orange box]}}$$

$$= \frac{\text{[green box]}}{\text{[orange box]}}$$

$$2. \frac{7}{8} + \frac{9}{24} = \frac{7 \times \text{[green box]}}{8 \times \text{[green box]}} + \frac{9}{24}$$

$$= \frac{\text{[pink box]}}{\text{[pink box]}} + \frac{\text{[purple box]}}{\text{[purple box]}}$$

$$= \frac{\text{[orange box]}}{\text{[orange box]}}$$

$$= \frac{\text{[green box]}}{\text{[orange box]}}$$

$$3. \frac{2}{3} + \frac{1}{4} = \frac{2 \times \text{[green box]}}{3 \times \text{[green box]}} + \frac{1 \times \text{[blue box]}}{4 \times \text{[blue box]}}$$

$$= \frac{\text{[pink box]}}{\text{[pink box]}} + \frac{\text{[purple box]}}{\text{[purple box]}}$$

$$= \frac{\text{[orange box]}}{\text{[orange box]}}$$

$$4. \frac{15}{21} - \frac{2}{3} = \frac{15}{21} - \frac{2 \times \text{[blue box]}}{3 \times \text{[blue box]}}$$

$$= \frac{\text{[pink box]}}{\text{[pink box]}} - \frac{\text{[purple box]}}{\text{[purple box]}}$$

$$= \frac{\text{[orange box]}}{\text{[orange box]}}$$

$$5. \frac{5}{12} - \frac{1}{6} = \frac{5}{12} - \frac{1 \times \text{[blue box]}}{6 \times \text{[blue box]}}$$

$$= \frac{\text{[pink box]}}{\text{[pink box]}} - \frac{\text{[purple box]}}{\text{[purple box]}}$$

$$= \frac{\text{[orange box]}}{\text{[orange box]}}$$

$$6. \frac{5}{7} - \frac{2}{4} = \frac{5 \times \text{[green box]}}{7 \times \text{[green box]}} - \frac{2 \times \text{[blue box]}}{4 \times \text{[blue box]}}$$

$$= \frac{\text{[pink box]}}{\text{[pink box]}} - \frac{\text{[purple box]}}{\text{[purple box]}}$$

$$= \frac{\text{[orange box]}}{\text{[orange box]}}$$
