

MURPHY'S LAW

If you change queues at the supermarket, what will happen? The queue you were in before, will move more quickly. You know what will happen because there's a law of life that says, *if something bad can happen, it will happen*. It's called **Murphy's Law** and it took its name from Captain Edward Murphy, an American aeroplane engineer from the 1940s.

He was investigating why planes crashed, and not surprisingly, he got a reputation for always thinking of the worst possible scenario... in every situation!

AT HOME

- 1) If you wash your car, ☐
- 2) If you look for something you lost, ☐
