

11.5

Translasi, Pantulan dan Putaran Sebagai Isometri/ Translation, Reflection and Rotation as an Isometry

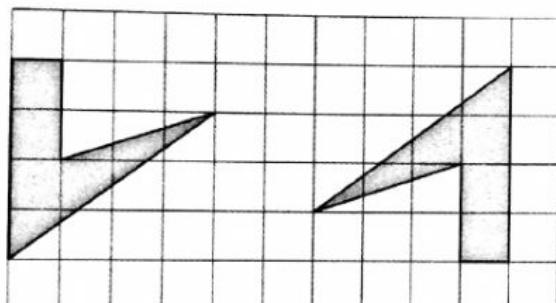

- 1 Tentukan sama ada transformasi berikut ialah isometri atau tidak. **TP 2**
Determine whether the following transformations are isometry or not.

CONTOH**Isometri/Isometry****Mudah**

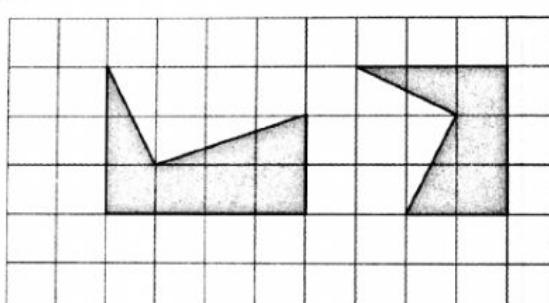

(a)

(b)

(c)

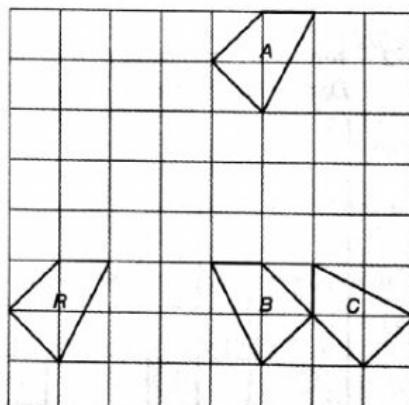

- 2 Tentukan sama ada translasi, putaran dan pantulan berikut ialah isometri atau tidak. **TP 2**

Determine whether the following translation, rotation and reflection are isometry or not.

Mudah

- (a) Sisi empat A ialah imej bagi sisi empat R di bawah suatu translasi.
Quadrilateral A is the image of quadrilateral R under a translation.

- (b) Sisi empat B ialah imej bagi sisi empat R di bawah suatu pantulan.
Quadrilateral B is the image of quadrilateral R under a reflection.

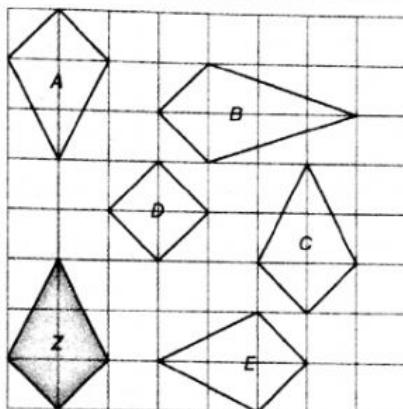

- (c) Sisi empat C ialah imej bagi sisi empat R di bawah suatu putaran.
Quadrilateral C is the image of quadrilateral R under a rotation.

11.5 Translasi, Pantulan dan Putaran Sebagai Isometri/ Translation, Reflection and Rotation as an Isometry

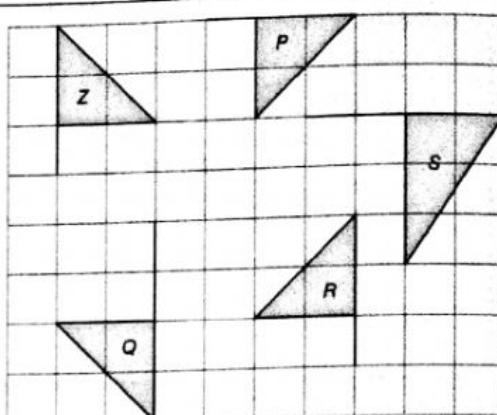

- 1 Antara rajah-rajab berikut, yang manakah ialah imej bagi Z di bawah suatu isometri? **TP3**
 Which of the following figures are the images of Z under an isometry?

Mudah

(a)

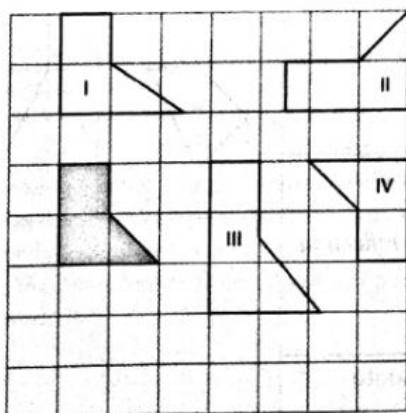

(b)

- 2 Tentukan imej bagi pentagon berlorek di bawah suatu isometri. **TP3**
 Determine the image of the shaded pentagon under an isometry.

Mudah

Imej bagi pentagon berlorek ialah
 The image of the shaded pentagon is
