

3학년 \_\_\_\_반 \_\_\_\_번 이름: \_\_\_\_\_

## Listen & Talk 1

### A.

B: I think we're using too many \_\_\_\_\_.

G: I \_\_\_\_\_. It's not good for the \_\_\_\_\_.

How can we \_\_\_\_\_ our use of plastic bags?

B: In my opinion, we should bring \_\_\_\_\_ bags when we go \_\_\_\_\_.

### B.

W: Jiho, hurry up! The elevator is going up soon.

M: The science room is just on the third floor. Why don't we take the \_\_\_\_\_?

W: I don't want to walk all the way up there.

M: Come on. Elevators use lots of energy. We need to save energy to \_\_\_\_\_.

W: But one elevator ride doesn't use that much energy.

M: That's true, but the \_\_\_\_\_ from all the elevator rides adds up over time. \_\_\_\_\_, taking care of the environment starts with the little things.

W: You have a point. Let's take the stairs.

### C.

M: Today, I'd like to make a \_\_\_\_\_ about the trash problem at our school. I've found that many students just throw things away instead of \_\_\_\_\_ them. As you know, however, recycling is very important because it \_\_\_\_\_ and helps protect the environment. So, in my opinion, we need to \_\_\_\_\_ the number of trash cans at school to \_\_\_\_\_ recycling. Why don't we place four different colored recycling bins on every floor instead? This will \_\_\_\_\_ students to \_\_\_\_\_ the paper, glass, plastic, and cans properly.
