

# Match

A Political Map shows countries, states and towns. Often, they are painted different colors so we can see them better. This map shows names and boundaries.

## POLITICAL MAPS

- ☐ Physical maps show the earth's features, like landscapes, mountains, rivers, valleys, deserts, lakes and oceans.
- ☐ They are best known for showing topography by colors.
- ☐ They can also be used to show elevation and land use.

## CLIMATE MAPS

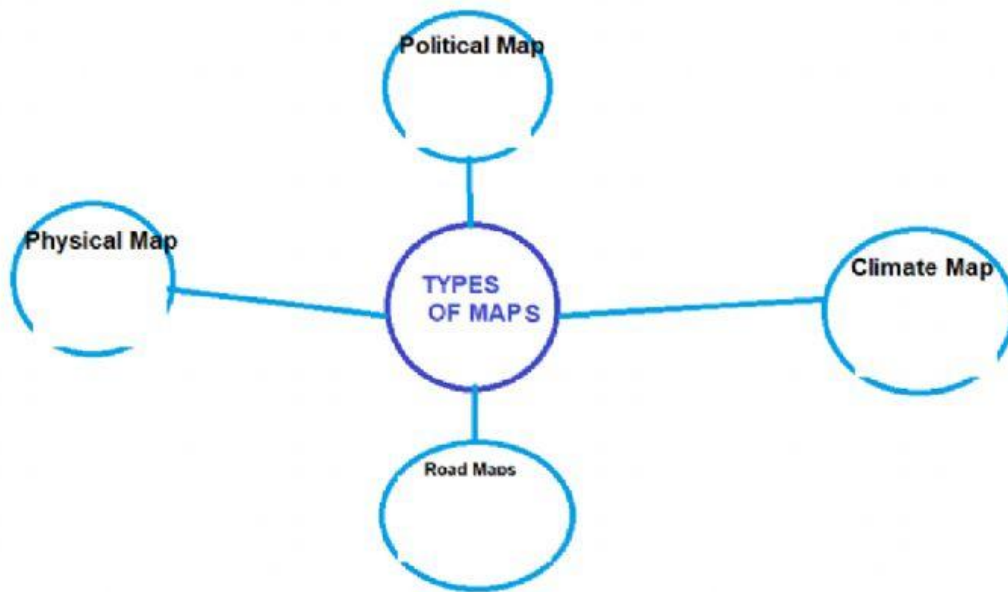

- ☐ A climate map is a type of map used to provide data about the general weather conditions in particular areas around the world.

## PHYSICAL MAPS
