

Subjek: Matematik
Topik : Perimeter (Segi Tiga Sama Kaki)

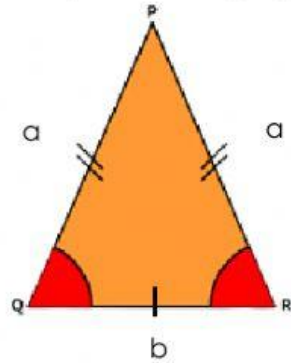

Nama: _____

Kelas: _____

Arahan: Carikan panjang lilitan / perimeter bagi segi tiga sama kaki yang berikut:

Contoh:

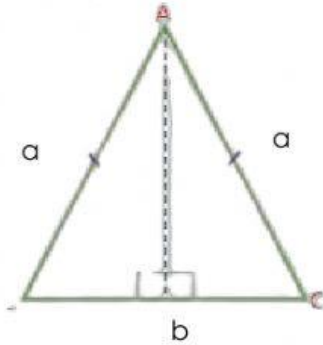

Cari panjang lilitan / perimeter segi tiga sama sisi yang berikut:

$$a = 6 \quad ; \quad b = 5$$

$$\begin{aligned} \text{Jawapan: } a + a + b \\ &= 6 + 6 + 5 \\ &= 2(6) + 5 \\ &= 12 + 5 \\ &= 17 \text{ cm} \end{aligned}$$

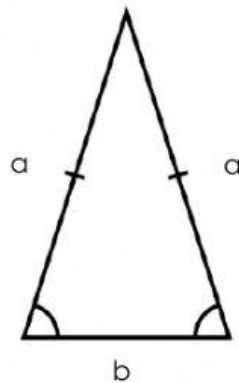

1. Cari panjang lilitan / perimeter segi tiga sama kaki yang berikut:

$$a = 7 \quad ; \quad b = 4$$

$$\begin{aligned} \text{Jawapan: } 7 + 7 + 4 \\ &= 2 \times 7 + 4 \\ &= 14 + 4 \\ &= \boxed{} \text{ cm} \end{aligned}$$

2. Cari panjang lilitan / perimeter segi tiga sama kaki yang berikut:

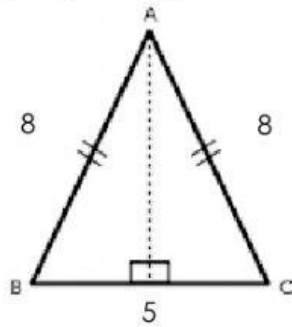

$$a = 5 \quad ; \quad b = 3$$

$$\begin{aligned} \text{Jawapan: } 5 + 5 + 3 \\ &= 2(5) + 3 \\ &= 10 + 3 \\ &= \boxed{} \text{ cm} \end{aligned}$$

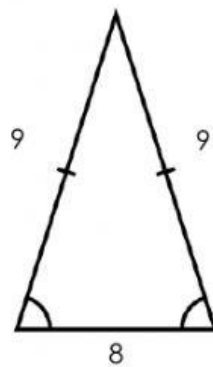

Sambungan...

3. Cari panjang lilitan / perimeter segi tiga sama kaki yang berikut:

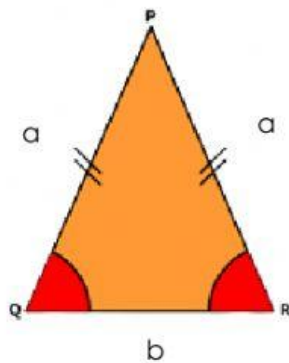

$$\begin{aligned}\text{Jawapan: } & 8 + 8 + 5 \\ & = 2(8) + 5 \\ & = \boxed{} + 5 \\ & = \boxed{} \text{ cm}\end{aligned}$$

4. Cari panjang lilitan / perimeter segi tiga sama kaki yang berikut:

$$\begin{aligned}\text{Jawapan: } & 9 + 9 + 8 \\ & = 2(9) + 8 \\ & = (\boxed{}) + 8 \\ & = \boxed{} \text{ cm}\end{aligned}$$

5. Cari panjang lilitan / perimeter segi tiga sama kaki yang berikut:

$$a = 10 \quad ; \quad b = 5$$

$$\begin{aligned}\text{Jawapan: } & a + a + b \\ & = \boxed{} + \boxed{} + \boxed{} \\ & = 2 \boxed{} + \boxed{} \\ & = \boxed{} + \boxed{} \\ & = \boxed{} \text{ cm}\end{aligned}$$
