5. The side effects of this drug _____ severe.
- a.think to be
 - b.are thought that they are
 - c.are thought they have been
 - d.are thought to be

Difficulties /5

READING

7. Read a review of *A Plastic Ocean*, then match the missing sentences in the correct place in the text.

A Plastic Ocean

A Plastic Ocean is a film to make you think. Think, and then act. We need to take action on our dependence on plastic. We've been producing plastic in huge quantities since the 1940s. Drink bottles, shopping bags, toiletries and even clothes are made with plastic. 1) _____. What happens to all the rest? This is the question the film *A Plastic Ocean* answers. It is a documentary that looks at the impact that plastic waste has on the environment. Spoiler alert: the impact is devastating.

The film begins as a journey to film the largest animal on the planet, the blue whale. But during the journey the filmmakers (journalist Craig Leeson and environmental activist Tanya Streeter) make the shocking discovery of a huge, thick layer of plastic floating in the middle of the Indian Ocean. 2) _____. In total, they visited 20 locations around the world during the four years it took them to make the film. The documentary premiered in 2016, and is now on streaming services such as Netflix.

It's very clear that a lot of research went into the film. There are beautiful shots of the seas and marine life. 3) _____. We see how marine species are being killed by all the plastic we are dumping in the ocean. The message about our use of plastic is painfully obvious.

Código: EUP: 2.2.P8 F2	Instrumento de Evaluación Sumativa Examen de Diagnóstico	Página 5 de 6
		

4) _____. In the second half, the filmmakers look at what we can do to reverse the tide of plastic flowing around the world. They present short-term and long-term solutions. These include avoiding plastic containers and 'single-use' plastic products as much as possible. Reuse your plastic bags and recycle as much as you can. The filmmakers also stress the need for governments to work more on recycling programmes, and look at how technology is developing that can convert plastic into fuel.

We make a staggering amount of plastic. In terms of plastic bags alone, we use five hundred billion worldwide annually. Over 300 million tons of plastic are produced every year, and at least 8 million of those are dumped into the oceans. 5) _____. Once you've seen *A Plastic Ocean*, you'll realise the time is now and we all have a role to play.

- A. The results are disastrous, but it isn't too late to change.
- B. But the film doesn't only present the negative side.
- C. These are contrasted with scenes of polluted cities and dumps full of plastic rubbish.
- D. This prompts them to travel around the world to look at other areas that have been affected.
- E. We live in a world full of plastic, and only a small proportion is recycled.

8. Read the text again and complete the sentences with the correct words given

make	term	reverse	impact	role	amount
take	obvious				

- We urgently need to _____ action about the plastic waste problem.
- The hurricane had a devastating _____ on the island.
- The filmmakers _____ a shocking discovery in the Pacific.
- The answer was painfully _____ to everyone in the room.
- Everyone has a _____ to play in this situation.
- It's not too late to _____ the tide and fix the problem.
- This is a short- _____ solution. It won't work forever.
- There is a staggering _____ of plastic in the world.

Difficulties /13

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper appears to be a standard notebook page or a sheet of stationery.
