

6.2 Sifat jirim Properties of Matter

A. Tandakan (✓) pada sifat bahan dan (x) bagi bahan yang tiada sifat tersebut.
Tick (✓) on the properties of the materials and (X) for materials that do not have those properties.

	Sifat jirim The properties of matter	Pepejal Solid	Cecair Liquid	Gas Gas
1	Mempunyai jisim Has mass			
2	Mempunyai isi padu tetap Has fixed volume			
3	Mempunyai bentuk tetap Has fixed shape			
4	Boleh memenuhi ruang Can occupies space			
5	Boleh dimampatkan Can be compressed			
6	Boleh mengalir Can flow			

B. Padankan aktiviti berikut dengan sifat jirim yang hendak dibuktikan.
Match the following activities with the properties of matter to prove.

Aktiviti Activity	Sifat jirim Properties of matter
	Udara mengisi ruang Air occupies the space
 Dicucuk dengan jarum Pricked with needle	Cecair mengikut bentuk bekas yang diisi Liquids take the shape of the containers
	Pepejal mempunyai jisim Solids have mass
	Udara mempunyai jisim Air has mass
	Udara boleh dimampatkan Air can be compressed
