A cupcake shop has opened on the High Street and it's been very popular!

1. How many cupcakes were sold on Thursday? _____
2. How many cupcakes were sold on Monday? _____
3. How many cupcakes were sold over the whole weekend? _____
4. Sarah thinks that the number of cupcakes sold on Monday is double the number sold on Tuesday. Is she right? Explain your answer. _____
5. On which day were 42 cupcakes sold? _____

PARENT TIP! Remind your child that one symbol equals 6 cakes and half a symbol equals 3 cakes. Encourage them to count in 6s to work out the answers.

Answers:
Thursday: 21. Monday: 30. Over the whole weekend: 117
Sarah is right because ½ is half of 5 / She is right because 30 were sold on Monday and 15 were sold on Tuesday. 42 cupcakes were sold on Friday.
