

Skill 2 -11A: Graphs: Using Data

Pictographs

Directions: Use the data from the pictograph to answer the questions below.

The students in Lana's class visited Sea World in Florida and recorded how many different fish they saw in the aquarium. They put the results in this pictograph.

1. How many Rainbow fish did the students see?
2. How many Clown Barb fish did the students see?
3. How many fish did the students see altogether?
4. How many more Swordtails than Clown Barb fish did the students see?
5. How many more Swordtails than Lemon Tetras fish did the students see?
6. How many fewer Clown Barb fish were seen than Lemon Tetras?
